

I am an active subscriber to the XM satellite radio and pay for their services because I have a lot more variety and better quality of reception than regular radio, also I travel a lot and frequently tune in to traffic reports and the weather channel which is one reason I have purchased XM services. Therefore the NAB has no right to infringe upon my first amendment rights and thus would like to recommend the FCC reject the NAB petition 04-160 and allow XM radio continue to provide its listeners with the services that we pay for. Thank you very much.
